AHMAD SHAREEF AHMAD AL NAEEM

Catalog Data & Systems Lead | Applied Computer Science Graduate

Amman, Jordan | JSMDAM@icloud.com | +962 7 7870 0012

PROFESSIONAL SUMMARY

Applied Computer Science graduate and Catalog Data & Systems Lead with hands-on experience across the full automotive data lifecycle: researching, collecting, structuring, cleaning, validating, standardizing, publishing, and maintaining high-volume product and fitment data. Experienced with ACES/PIES standards, SQL, Excel, Akeneo PIM, NetSuite ERP, Deposco WMS/OMS, eBay Motors, and internal browser-based catalog tools. Skilled in data quality, cross-system reconciliation, technical QA, root-cause analysis, catalog standards, and supporting specialists on complex research and data issues.

Core Competencies: ACES/PIES | Automotive Fitment Data | Product Information Management (PIM) | ERP/WMS/OMS | SQL | Data Quality & Validation | Data Normalization | Data Reconciliation | Catalog Systems | eBay Data Management | Internal Tool Development | Root-Cause Analysis

PROFESSIONAL EXPERIENCE

Detroit Axle | Catalog Data & Systems Lead — *Amman, Jordan* **Sep 2026 – Present**

- Lead and support Catalog Data Specialists across automotive fitment research, product-data validation, catalog QA, and standards compliance using ACES and PIES.
- Review and govern application and attribute data including Year/Make/Model/Engine (YMME), Submodel/Trim, Drivetrain, Position, specifications, taxonomy, and related product fields to maintain accuracy, completeness, consistency, and integrity.
- Manage and validate catalog data across Akeneo PIM, NetSuite ERP, Deposco WMS/OMS, SQL, Excel, and eBay Motors; perform cross-system reconciliation, field mapping, exception review, and root-cause analysis for conflicting or incomplete records.
- Develop and maintain internal browser-based tools and workflows for universal SKU search, reverse kit lookup, catalog auditing, kit coverage analysis, SKU normalization, bulk data filtering, relationship validation, and data-quality control.
- Review and maintain eBay fitment data, item specifics, titles, structured listing data, descriptions, and HTML content to ensure customer-facing information matches approved internal catalog records.
- Support R&D and catalog expansion by identifying application gaps, missing coverage, attribute deficiencies, component-to-kit relationships, and recurring data issues; define QA rules, naming conventions, validation logic, and research procedures.

Detroit Axle | Catalog Data Specialist — *Amman, Jordan* **May 2026 – Sep 2026**

- Researched, extracted, and validated automotive fitment datasets across technical databases using ACES and PIES standards, processing 800+ listing rows daily and scaling to 50,000+ rows monthly during peak operations.
- Structured, cleaned, and normalized YMME, Submodel/Trim, Drivetrain, Position, and product attributes using Microsoft Excel (XLOOKUP, Conditional Formatting), SQL queries, and Akeneo PIM.
- Conducted e-commerce market research and competitor benchmarking to optimize product categorization, title structures, and metadata across Amazon Seller Central, eBay Motors, and proprietary web channels.
- Audited inventory records and catalog mapping across Deposco WMS/OMS and bulk automotive datasets to identify and resolve duplicate, incomplete, and conflicting fitment records prior to publication.
- Standardized product metadata and performed QA audits using custom Excel workflows and data validation processes to improve searchability and listing accuracy.

Detroit Axle | Customer Service Representative — *Amman, Jordan* **Sep 2025 – Apr 2026**

- Managed high-volume live chat operations handling 300+ daily customer inquiries involving order tracking, return logistics, and technical fitment questions.
- Documented recurring fitment issues and followed structured support workflows while coordinating with internal teams to resolve customer and product-data concerns.

ALRAJA Company Limited | Customer Service & Sales Representative — *Remote* **Feb 2025 – Jul 2025**

- Conducted multi-channel inbound and outbound customer communications, converting technical product inquiries into sales opportunities.
- Logged and updated customer records and order histories using Salesforce CRM, maintaining accurate transaction and account data.

CS MENA | Customer Service Representative — *Hybrid* **Jul 2024 – Jan 2025**

- Resolved e-commerce order, payment-processing, and account-management discrepancies via Zendesk while maintaining high conversation quality measured through Klaus QA.
- Achieved a top-3 agent ranking for six consecutive months by exceeding KPI and quality-assurance benchmarks.

Jordan Cyprus Logistics | Logistics & Operations Associate — *Amman, Jordan* **Mar 2024 – Jul 2024**

- Managed order processing, inventory allocation, and fulfillment workflows across Deposco WMS/OMS and ShipStation to support accurate order routing and shipping logistics.
- Audited and reconciled inventory records, shipment manifests, and operational documentation across distribution channels to maintain stock accuracy.

Real Estate Development Firm | Collections Officer — *Amman, Jordan* **May 2024 – Jul 2024**

- Negotiated payment schedules and resolved delinquent portfolio balances using structured recovery strategies.
- Reduced total outstanding account balances by 10% through structured payment plans and direct client negotiations.

Talabat Mart | Dark Store Picker / Fulfillment Specialist — *Amman, Jordan* **Jan 2024 – Jun 2024**

- Processed and fulfilled online retail orders in a high-throughput dark-store environment while maintaining item accuracy and quality standards.
- Managed real-time inventory tracking, stock organization, and order assembly using handheld scanning devices.

EDUCATION

Hashemite University | Zarqa, Jordan **Graduated June 2026**
Bachelor of Science in Applied Computer Science

TECHNICAL SKILLS

Programming & Scripting: SQL, Python, JavaScript, Java, C++, Bash, HTML/CSS
Data & Catalog Systems: ACES/PIES Standards, Automotive Fitment, YMME Mapping, Data Cleaning, Data Validation, Data Normalization, Data Reconciliation, Product Taxonomy, Attribute Mapping, Catalog QA
Enterprise Platforms: Akeneo PIM, NetSuite ERP, Deposco WMS/OMS, eBay Motors, Amazon Seller Central, Salesforce CRM, Zendesk, ShipStation
Tools & Analysis: Microsoft Excel (XLOOKUP, Advanced Formulas, Conditional Formatting), DBMS Concepts, Data Mining, Root-Cause Analysis, Process Documentation, Internal Browser-Based Tools

ADDITIONAL EXPERIENCE & LANGUAGES

Hospitality Operations: Sous Chef / Waiter roles at Firefly, Burgariiz, AlAwael, and Diwan Zaman; developed stress management, prioritization, adaptability, and team coordination in high-throughput environments.
Languages: Arabic (Native) | English (Advanced / Business Fluent, IELTS 7.5 / C1)
